Use of recyclable material
- Anonymous** 31m  
I would like to know more about the recycle materials used in the crop rotation system and also HOW larger labor force is incorporated.
- Anonymous** 30m  
Your energy is amazing. Your experience is very dense and you seem to have learned a lot!
- Anonymous** 30m  
It is very interesting about urban ecological farm.
- Anonymous** 30m  
Amazing. love your slides
- Anonymous** 30m  
Its really good to use organic systems rather than going for GMOs
- Anonymous** 30m  
as you said impressive to see these green areas in the middle of the city
- Anonymous** 30m  
Never seen covered soil. Interesting
- Anonymous** 30m  
Interesting practices of IPM, would like to know more about the breweries wastes!
- Anonymous** 30m  
Amazing to see that BSG (brewery waste) is used for mushroom farming great project
- Anonymous** 30m  
Too bad it's a long distance competition, we would love to taste your product!
- Katherine Flynn** 24m  
super visit

Nice to have some figures in introduction ! I did not know the consumption of Milk in your country
- Anonymous** 27m  
Society skill development
- Anonymous** 26m  
Food and social development need to be more related than ever, thanks for considering this social level among your objectives !
- Anonymous** 26m  
I have never heard of Dangke cheese. Very unique product from a country with low milk consumption. I will look it up now.
- Anonymous** 26m  
Good work...to set up a dairy stable nation!!!!
- Anonymous** 26m  
Nice idea to use social medias !!
- Anonymous** 25m  
interesting idea , using technology in this time to improve the problems
- Anonymous** 25m  
Nice work. would like to know more about the cheese
- Anonymous** 25m  
developing traditional food so that it can be attracted by young people by making modern packaging is a very good idea
- Anonymous** 25m  
Concise and straight to the point. I must look dangke cheese up
- Anonymous** 25m  
Use of technology for increase commerce and product sell
- Anonymous** 25m  
Use of traditional practices and developing them into modern practices and society
- Anonymous** 24m  
awesome can create social impact to the community and introduce their product with digital market,
- Katherine Flynn** 17m  
visit to a milk plant as part of a long term project

The diversity of product is so amazing to learn about !
- Anonymous** 14m  
wow she has very valuable experience to work doing research on food in south africa. I am very interested in moringa, I really like to use perfume from moringa extract. It turns out that moringa also contains a lot of antioxidants
- Anonymous** 14m  
Very amazing! Diverse products, reducing hunger are all our main aim
- Anonymous** 14m  
back to nature, very interesting, the concept can improve the sustainable of the environment.
- Anonymous** 14m  
Love the utilization of different plant based alternatives! Great work :)
- Anonymous** 14m  
An interesting mix of products
- Anonymous** 13m  
informative presentation!
- Anonymous** 13m  
Never knew about the groundnut
- Anonymous** 13m  
Amazing presentation from the team!
- Anonymous** 13m  
it is interesting we also have moringa in Peru
- Anonymous** 8m  
Amazing presentation loved the insect protein
